

VERMAX

NORTH AMERICAN GLASS GREENHOUSE MANUFACTURER

SINCE
1985

*We have been designing, engineering
and manufacturing greenhouses
for the North American climate.*

A WORD FROM THE PRESIDENT

With 40 years of engineering experience and services provided around the world, Vermax's mission is to meet current and future challenges. At Vermax, carbon neutrality, energy efficiency, resource optimization and business sustainability are not just buzz words; they're our team's daily source of inspiration and motivation. Vermax proactively works towards a future in which greenhouses are an integral part of the well-being of coming generations. Vermax is a source of dreams for everyone. Vermax is at the cutting edge of technology. Vermax delivers innovative, turnkey projects.

WE BUILD YOUR DREAM

SAVOURA

1987 The very first traditional tomato culture Vermax glass greenhouse project.

UNIVERSITÉ LAVAL

2005 Our first institutional glass greenhouse project.

VERMAX

THE ONE-STOP GLASS GREENHOUSE SOLUTION.
From drawings to after-sales our team will always be there for you.

WE BUILD YOUR DREAM

COMPLETE DESIGN AND ENGINEERING

We analyze, design and engineer all our products in-house. Our team of engineers develops the most innovative and durable glass greenhouses structures and services buildings. From the studio desktop to the field grownd we work with you from start to delivery. Our buildings are tested and proofed under the heaviest north american weather conditions.

WE BUILD YOUR DREAM

GREENHOUSE CONSTRUCTION

From the beginning, our team takes charge of every step to ensure your peace of mind throughout your project. We ensure that your glass greenhouse project will be delivered on time and meet all of your expectation. Our project supervisor will lead the construction activities from soil to roof.

LOCAL LEGISLATION COMPLIANCE

Our work in various environments is adapted to each project in every city, in every country. Over the years, we have developed a phenomenal expertise to meet the requirements of local legislation challenges and odds. We work hand-in-hand with local specialists to ensure every step of our work meets all the particularities and respects regional building codes.
